Signal Health Group provides care

24/7 days a week, 365 days a year.

Qualifying For Home Health Care

To qualify for home health services, you must have a medical need for the skilled services of a nurse or therapist and meet the definition of homebound. This simply means that leaving the home requires taxing effort and that you leave the home infrequently and for short durations. You can be temporarily homebound due to illness or injury.

Your doctor must order home health services. **You must have seen your doctor within 60 days of the start of home care, or 30 days after the start date of home care.**

SIGNAL HEALTH GROUP

One Place For All Your
Health Care Needs

About Us Signal Health Group

Signal Health Group's mission is to provide home-based medical and non-medical services to elderly, disabled population. We provide full comprehensive care services including personal care and home health. Our company's core principles are Honesty, Integrity, Teamwork, Passion, and Caring Customer Service.

Dedicated, Experienced and Trustworthy Staff

All of our caregivers have been thoroughly screened including reference checks, license checks where applicable, and background checks. We are bonded and insured. Their skills have been thoroughly evaluated for the duties they will be performing in your homes, and we continue skills evaluation and skills training with each caregiver, every year.

Non-Skilled Care

Whether you are seeking a little extra help with simple household tasks or needing more intensive care for a loved one, Signal Health Group is a trusted provider with a compassionate and committed staff for all your needs. Our staff is carefully selected based on a rigorous hiring process with extensive background checks and required prior work experience and skills. Patients can have the utmost confidence they are with a staff that is knowledgeable and committed to giving you the best care.
